The New London purchasers of the Slater property in Norwich have not yet succeeded in disposing of the mansion, which is too expensively fitted for anyone to maintain it, even as a gift. The wainscotting and decorations of one small room cost \$25,000, and throughout the house the same elaborate expenditures were made when the Slaters occupied it. The purchasers hope to sell it in pieces. The doors to sail for each door. Other disposals in proportion. Treasurer F. J. Leavens moved that a tax of 31-2 mills be laid, payable October 15, 1969, and that the compensation of the collector be 1 per cent. According to the estimates he sain the sum of \$8000 will be applied to the debt of the district this year. For 35 to 40 years, he explained, there had been a debt, going as high as \$90,-000. Ten years ago they commenced had been a debt, going as high as 590, 600. Ten years ago they commenced to decrease it, and by the payment of \$8,000 this year there will be left only \$16,000 of that amount, which, it is planned, can be paid off the next year, wiping out the debt of the district and reducing the tax 1 per cent. at least. The tax was voted and adjournment was at once taken. The election of officers does not take place until fail.

GROTON & STONINGTON RY. CO. elected-Best Year in History of the Company-Dividend of 6 Per Cent.

The annual meeting of the stock-holders of the Groton and Stonington Street Railway company was held at Mystic at 16 o'clock on Monday morning, at which there was a large representation of stock.

Statement of President Hamilton

President Thomas Hamilton submit-ed the following report:

To the Stockholders of the Groton and Stonington Street Railway Company:

Gentlemen: I am pleased to report hat notwithstanding the continued Gentlemen: I am pleased to report that, notwithstanding the continued depression in business, especially along the route of our road at Noank, where the Palmer Shipbuilding Co., which has employed about 350 men, has practically shut down the past year, our gross receipts, have materially increased.

creased.

This I would credit to the gradual increase of our express business, which at the present time amounts to about \$240 a month more than last year. The importance of this branch of the business was especially called to your attention in my report at the last annual meeting and I predicted this gain nual meeting and I predicted this gain at that time. I believe that the re-ceipts from this branch of the business will continue to increase, especially when it is possible to run our cars across the river on a bridge to New London and have our terminus at the London and have our terminus at the parade. This will surely come about within the next five years.

I wish you to know that the management has secured from the legislature at this present session a renewal of its original charter in Groton, which provides a way to get to a bridge to

We have also acquired a charter for building a branch road from Mystic to Old Mystic, a distance of about three miles, and I believe that if this is built it will pay from the start, as it could be run with very little additional. Nelson Raymond, an employe of the People's store, left town Sunday morn-

am not able to give correct figures as to the actual cost of building this road, but it could be done cheaply, as there would be no grading.

During the past year we have spent \$2,320 in permanent improvements. This includes bricking our proportionate part of the track at Westerly, macadamizing road at Noank, clearing curve at Denison cemetery, changing adamizing road at Noank, clearing curve at Denison cemetery, changing over and raising track in Groton, installing boiler in car barn, erecting oil house as per insurance inspector's orders, building waiting station at West Mystic, building frieght stations at Noank, Mystic and Stonington, purchasing land and relocating station at Stonington, lighting six waiting stations, curves, etc. These improve-

Stonington, lighting six waiting stations, curves, etc. These improvements were absolutely necessary and have been a great advantage to the efficiency of the road.

Statistics show our operating expenses, which in 1908 were less than 51 per cent. of our gross earnings, to be the lowest in the state.

Our power station is in first class condition and is still in charge of Mr. Barry, who has been with us since we began operation and who is responsible for the good condition of our machinery and for keeping the station in such good order at a small expense. Such good order at a small expense.

Our cars and equipment are in fine condition and our roadbed and track are as good as there are in the state; our accommodations and conveniences for the patrons of our road are the best in the state and are conveniences. best in the state, and our conductors are favorably commented on for their politeness and courtesy to passengers.

These facts go to show that our superintendent, Mr. Riley, is faithful and energetic and works for the success of the company, and he described and

the company, and he deserves credit for his good work. We naturally must expect a greater outlay for repairs as time goes on, but our eccipts will be rease more in pro-portion, and I am confident that our income will continue to increase from

year to year.
The report of Treasurer Costello
Lippitt shows the gross earnings for the year to have been \$108,741.78 which is a gain over last year. The amount of dividends declared amount to \$22,000. The number of personnel carried was 2,169,217 for the year.

Directors and Officers Elected. The stockholders elected the following directors for the ensuing year:
Thomas Hamilton, Groton: Costello Lippitt, Norwich: Charles W. Comstock. Norwich: B. A. Armstrong. New London: Edwin W. Higgins, Norwich: C. R. Hanscom, New London, B. F. Williams, Mystic; A. H. Chappell. New London: Charles D. Noyes, Norwich. At a subsequent meeting of the directors the following officers were elected for the ensuing year: Presidents slected for the ensuing year: Presi-lent, Thomas Hamilton; vice presi-lent, B. F. Williams; treasurer, Cos-

tello Lippitt; secretary, Charles D. Noyes; attorney, Charles W. Com-The usual dividend of 6 per cent., payable August 15 to stockholders of record August 1, was declared.

The year has been a very successful one for the company, as shown by the reports. The car earnings were greater than ever before, and the express earnings show a large and handsome increase. The per cent of the operating expense to the gross earnings is the smallest of any road in the state. It shows the effect of the efficiency of the superintendent during the year.
